

The London Fuel Poverty Hub

[The London Fuel Poverty Hub](#) is an online resource, designed to give you the information, contacts and knowledge you need to play your part in helping to tackle fuel poverty in London.

Set up in 2013 by [SE²](#), the hub hosts news, opinion pieces and links to research papers that will help you understand the causes and effects of fuel poverty in the city and the impacts that it has on the lives of Londoners.

The hub has a dedicated Borough search tool to help you find out what support, advice, funding and energy efficiency help is available to residents in each area of London.

Here we've compiled a list of Energy suppliers providing the Warm Home Discount scheme, designed to provide financial help to low income and vulnerable households.
